

13-1-13

EVERY NUTRIENT • EVERY GRANULE

Homogeneous Micro

GENERAL INFORMATION

- **Tru-prill® 13-1-13** is a homogeneous fertilizer containing containing ammonium sulphate for quick green up and soil acidification.
- A complete formula including secondary and micro nutrients to address the deficiencies found in turf grass plants growing in sand based media.
- **Tru-prill® 13-1-13** is a micro grade homogeneous fertilizer for even distribution of nutrients at lower rates.

GUARANTEED MINIMUM ANALYSIS

Total Nitrogen (N).....13.0%
Available Phosphate(P₂O₅).....1.0%
Soluble Potash (K₂O).....13.0%
Calcium (Ca).....2.0%
Magnesium (Mg).....1.7%

Iron (Fe).....0.36%
Manganese (Mn).....0.14%
Zinc (Zn).....0.13%
Boron (B).....0.36%
Copper (Cu).....0.06%

NUTRIENT SOURCES:

Ammonium sulphate, ammoniated phosphate, urea, sulphate of potash, calcium-magnesium carbonate, ferrous sulphate, manganese sulphate, copper sulphate, zinc sulphate, boric acid, molybdcic oxide.

SUGGESTED SPREADER SETTINGS

SGN-90

To provide proper distribution, calibrate spreader before application.

Settings calibrated to 100% overlap.

Tru-Prill® 13-1-13 Homogeneous Fertilizer With Ammonium Sulphate

13-1-13

EVERY NUTRIENT • EVERY GRANULE

Homogeneous Micro

FEATURES

Homogeneous Composition

Nutrient Dispersion

Ammonium Sulphate

Key Secondary and Minor Elements

Quick Green-up

BENEFITS

Even distribution of nutrients at low rates of application with minimal mower pick-up.

Tru-prill granules begin to “melt” within minutes following irrigation for better nutrient dispersion, and minimal disruption of play.

Research has shown that the acidifying characteristics of ammonium sulphate helps to suppress pressure from patch diseases.

Formulated with secondary and micro nutrients to address the deficiencies found in sand growing media.

Tru-prill®13-1-13 provides a quick green-up from soluble Nutrients that are readily available. When applied at low rates throughout the season, 13-1-13 is a good choice for “spoon feeding” turf grass.

DIRECTIONS FOR USE

- Apply **Tru-prill®13-1-13** any time when the turf needs fertilizer.
- Apply to dry turf and water in immediately following application for 10 minutes.
- Product **MUST** be watered in well to dissolve ammonium sulphate and avoid potential burn.
- When applying to finely mowed turf, mow for one day without buckets to reduce mower pickup.
- Use a clean dry spreader. Do not leave unused product in a spreader.

STORAGE REQUIREMENTS:

- Store in a clean, dry location.
- Partially used bags should be closed by folding over the open end and securing.
